

PLACE MAKING

What is Placemaking?

Placemaking brings together a community's strengths, vision and goals through creating connections between people and physical space.

PLAY

Safe and exciting spaces for children to play brings vitality to neighborhoods. Integrating nature and water into play areas can help connect children to their surroundings while providing a safe, attractive space.

FLEX SPACES

What is the shape of new public spaces? Interactive, exciting and social. Pop Up events, food trucks, farmers markets, art and culture can be programmed by the community, leading to active, safe spaces for all.

CIVIC SPACES

Public plazas with welcoming design and landscaping can be used as outdoor classrooms; for small, family-friendly events; and as versatile, flexible programming spaces.

**CAN THIS
HAPPEN
ON JASPER
STREET?**

YES!

The City of Decatur wants to hear
what you would like to see along
Jasper Street between Pershing and
Lake Shore.
